## SOLDIERS READY FOR LONG STAY

VARIOUS SHACKS OF LUMBER HINT AT PERMANENT CAMP.

## UNCLE SAM TREATS HIS TROOPS WELL

Cots Have Been Furnished and Improvements Are Made Every Day—Plenty of Storms.

Laredo, Tex., Aug. 2.—Yes, we are still here, and are being brought as rapidly as possible into trained musicians and soldiers. While we have not written as much of late as we should have, there has not been a day passed but what there has been a discussion among the boys as to how soon we should be sent home. There have been rumors upon rumors circulated about officials sending us to Corpus Christi, San Antonio, Nevada and even home, but the safest bet is that we will be here until the authorities are ready to move us. It is problematical, to say the least.

### Getting Permanent Quarters.

That our stay here will be one of some length is evidenced by the fact that cook and mess shacks are being constructed of lumber. Co. A, of Tarkio, just across our back yard fence, was the first company to erect a "shack."

The building is about sixty feet long by twenty-four feet wide and about nine feet high at the eaves. The roofing is "Certain-teed" while the sides and ends are covered by wire screen. An aisle runs the length of the building, and on either side are bench tables to accommodate about eight people with five tables on a side. At one end of the building is set off enough space for the kitchen and commissary. The floor will be boarded later. By the end of the week it is expected that all of the companies will be equipped with these new conveniences.

### Cots for the Boys.

Our hearts, as well as our sides and backs, were made glad Monday evening because we were given cots. Nearly every evening most of the boys have been going up town, but since the cots have arrived town has little attraction. Many of you may be able to imagine what a relief these cots have brought to our minds, when many of us always went to sleep with the fear of waking in the morning with horned toads hopping about or a centipede in the offing, not to say anything of the ants and kindred animals. Tarantulas are in the vicinity but have not bothered us much up to the present time. We are not overly anxious to entertain the "gentlemen."

Last night and Monday night were the most ideal nights we have had to sleep, although we have had no room to object to other nights. While the temperature has soared as high as 115 degrees, yet the nights have been conducive to heavy slumber as a number of the boys testify. For when anyone fails to arise in time to play reveille at 5:30 it means extra fatigue for him. Generally the woodpile awaits his coming with pleasure. Sometimes we almost envy you your daytime but we would not trade one night for six back home.

### Rains Make Visit Daily.

Rains have been making almost daily visits and stay from half a minute to an hour. Sometimes it falls intermittently through the day. One can travel around ten minutes after a rain without fear of coming into contact with the mud. When the rain forgets to come, it sends its second cousin, the sand or dust storm. Rain is the more preferable, because it does have some manners and will be content to remain outside of the tent, but as for Miss Dust—

### MARRIED 50 YEARS BALL TOURNAMENT

MR. AND MRS. JOHN HAGEY CELEBRATED ANNIVERSARY.

### WEDDING AT QUITMAN

Mr. Hagey Has Been a Resident of the County 64 Years—Mrs. Hagey a Native of Holt County.

The golden wedding anniversary of Mr. and Mrs. John Hagey, living west of Burlington Junction, was celebrated Wednesday at their home. The big reunion was planned by their children and grandchildren. The following is from this week's Burlington Junction Post:

On August 9, 1866, this couple was married at the home of the bride's mother, Mrs. Elizabeth Bowman, in Quitman. Shortly after their marriage they moved to the present homestead, where they have lived nearly fifty years.

Mr. Hagey was born in Ohio, July 18, 1843, and came to Missouri just nine years later, or 64 years ago, which numbers him among the earliest settlers in Nodaway county. Mrs. Hagey was born in Holt county on January 2, 1851, and came to Nodaway county shortly before her marriage.

Seven children were born to this union, six of whom are living. They are James Hagey of this place, H. M. Hagey of Alexandria, Neb., Abe Hagey of Arcadia, Neb., Mrs. Sears of Comstock, Neb., Mrs. R. P. McClary of Arcadia, Neb., Mrs. Jesse Headrick of Conception. Another daughter, Zula, died about fifteen years ago.

Mr. and Mrs. Hagey also have twenty-grandchildren: Carl, Virgil, Clarence, Marie and Elsie Hagey, Ruth, Sylvia, Clifton, Fred, Iva, Edwin, Byron, Helen and Hubert Sears, Ray and Robert McClary, Harlan, LeRoy, Willard and Virgil Headrick.

For some time the family of Mr. and Mrs. Hagey have been planning to observe the occasion of their golden wedding anniversary, and Wednesday a very large and very happy number gathered at the home and made the day a merry one for this esteemed couple.

The guests were: Messrs. and Mesdames John Hagey, E. J. McCown of Craig, Mo., A. B. Crane, H. C. Hiles, Cal Suttle, Jared Hayes, Wm. Woods, E. Kern, Wm. Crane, Don Kingery, Chas. Short, Ben Hagey, Jas. Palmer, Sam Ballenger, Marvin Short, Jesse Suttle, Chas. Suttle of Pickering, Mark Hiles, J. E. Hagey, H. M. FEDS TO PUT ON SERIES OF GAMES AUG. 30 TO SEPT. 1.

### TO OFFER \$450 PURSE

Albany Bronchos Clash With Home Team Sunday—Indians Will Play Here Again in a Week.

Maryville will have another base ball tournament this year. Manager Cleav Funk and his Feds will put on a three-days tournament Aug. 30, 31 and Sept. 1. Besides the Feds three other teams from the following will be selected: Shenandoah, Albany, Creston, Burlington Junction and Bedford. There will be two games each on the three afternoons. An attempt will be made to sell enough season tickets next week to guarantee the tournament. The tickets will be \$1.25 for the six games, including the grand stand. A purse of \$450 will be divided between the four teams.

The Albany Bronchos will come here for another game with the Feds Sunday. The two teams are about evenly matched, and it should be a good game. Wahlers of Kansas City will pitch in place of Stephens, who broke his finger in the game at Barlaston last Saturday. Wahlers is that hard-working backstop who caught for the Feds in the Lincoln game here some time ago.

A week from Sunday the Feds will play another game here with the Cheyenne Indians. They will also play in a three-day tournament at Clarinda, Aug. 23, 24 and 25, and at Albany, Aug. 26, instead of having the three days at Albany.

Mr. Crawford and family came to Maryville about ten years ago and he and J. H. Sayler formed a law partnership. They were together for seven years. Six years ago Mr. Crawford was the Republican candidate for circuit judge of this district, having been defeated by Judge W. C. Ellison.

Mrs. Case will leave soon to spend a few weeks with her parents at Iowa Falls, Ia.

New York, Aug. 11.—The crisis of the threatened strike between railway employees and the railroad companies will be reached within twenty-four hours. The railway brotherhoods gave the federal board of mediation until 10 o'clock tomorrow morning to present its final proposition for averting the strike. The leaders set this limit after receiving request from the board that it be granted more time. The mediators stated that they had not yet reached a decision as to the proposals that they should submit. The request for delay was considered more than an hour by the chief of the railway brotherhood before it was granted.

Continued abuse of his opponent, and continued criticism of his acts and policies will not win Mr. Hughes a victory in November. He must announce a policy; he must tell what he would have done as president and what he expects to do if elected to the presidency; he must tell where he has been and where he proposes to go. In short, Mr. Hughes must construct as well as assail.—St. Joseph News-Press.

**THE CONGRESSIONAL TICKET.**  
With the exception of the first district where James T. Lloyd having declined to stand, M. A. Romjue was named to make the race, every Missouri democratic congressman at Washington, from Champ Clark to Perl Decker, "our youngest," was renominated on Tuesday. The conspicuous services rendered by Missourians in Washington are largely to be accounted for by this policy of keeping worthy men continuously in service. The renomination of Senator Reed was a foregone conclusion also.

But one detail remains to be attended to. That is to re-elect the Senator and congressmen who have just been chosen as their party's representatives before the electorate. This is only less important than the re-election of President Wilson. To continue him in the white house without a congress responsive to plans for progressive legislation would be to retain the workman but rob him of

### COWGILL TO BE CHAIRMAN

Kansas City Man to Head the Democratic State Committee—New Committee to Meet Aug. 22.

James Cowgill of Kansas City, who is to be made chairman of the new Democratic state committee when the committeemen meet at Jefferson City August 22, yesterday informed his friends here he would accept the post. But for the past three years behold an era of good feeling! There has been real teamwork between the congress and the executive. The working relations between the heads of departments and the chairmen of important committees of congress—Secretary Houston and Chairman Lever of the house committee on agriculture and our own Judge Alexander of the committee on merchant marine are conspicuous instances in point—have been close and singularly effective. The relation contemplated by the framers of the constitution when they made the president the adviser of congress as to new legislation has been realized in practice.

This relation must be conserved and continued. Missouri has an opportunity of priceless value in this connection. That is the opportunity to re-elect Speaker Clark, Senator Reed and the congressional ticket from top to bottom.—St. Louis Republic.

Yearly Report of Commissioner Shows Total Resources of \$530,958,883 for Missouri Institutions.

The deposits of state banks and trust companies in Missouri increased \$41,190,825 in a year, according to an abstract of the reports on condition at the close of business June 30, 1916, just compiled by J. T. Mitchell, state bank commissioner.

The comparison is between June 30 of this year, and the reports for June 23, 1915. In the same period the loans of state institutions increased by \$26,071,223, cash and sight exchange increased by \$18,074,340, and total assets increased by \$49,773,310.

The latest call for statements showed that Missouri institutions with state charters had personal and collateral loans amounting to \$251,401,789 and real estate loans of \$64,235,918. They owned bonds and stocks valued at \$65,416,595. Total resources were \$530,958,883.

The liabilities included capital stock of \$60,391,205; surplus fund, \$40,133,847; undivided profits, net, \$12,205,591; individual deposits subject to check, \$229,991,178; time certificates of deposit, \$91,966,944; demand certificates, \$3,645,269, and savings deposits, \$47,420,210.—St. Louis Republic.

### TO STUMP STATE FOR GARDNER

Charles M. Hay, Leader of the "Drys," to Make Speeches for the Democratic Nominee for Governor.

Charles M. Hay, who is recognized as the leader of the "drys" in Missouri, will stump the state in the interest of Col. Frederick D. Gardner, the Democratic nominee for governor, and the entire national and state tickets.

Hay formerly represented Callaway county in the legislature, but for several years has practiced law in St. Louis. He supported John M. Atkinson for governor in the recent primary campaign.

"The Democratic party did not make any mistake in nominating Col. Gardner," said Mr. Hay.

"He is a man of distinct personality, is fearless, has been a successful business man, and has the esteem and respect of the voters of Missouri. His popularity was evidenced by his vote at the primaries. It is true I supported Mr. Atkinson, but there will be no man in this state who will give our nominee for governor more hearty support than I."

### To Teach in Oregon.

Donald Robey left last night for Palouse, Ore., where he will teach the coming year. Mr. Robey is in charge of manual training and is also athletic director. ### COLLAPSE DUE TO DRINK

BAPTIST MINISTER OF ST. LOUIS TELLS OF FIGHT.

Regulus Complete Mastery of Himself, Noted Pastor Issues Statement to the Public.

In a signed statement addressed to "my fellow Christians and devoted friends in St. Louis," and given to the public through Bernard Gruenstein, the religious editor of the Republic, Rev. Dr. William J. Williamson, former pastor of the Third Baptist church, last night confessed that it was drink that caused his physical and mental breakdown six months ago.

The cause of Dr. Williamson's sudden collapse has been a profound mystery except to a few intimate friends. Sensational rumors have filled the air, but only within the last few days would those in Dr. Williamson's confidence admit that it was anything more than a nervous disorder.

After visiting five sanatoriums and the Muldoon farm in an effort to conquer his enemy and restore his health, Dr. Williamson decided that he had won out, and his statement is, in effect, a challenge to the demon which had mastered him and a defiance of his power.

Noted in his days of almost unsurpassed influence and power for his straightforward honesty and directness of purpose, Dr. Williamson manifests the same sincerity in disclosing the source of his downfall and appealing to his friends for moral support.

No human document ever penned breathes a manlier spirit. In this statement Dr. Williamson tells of his single-handed fight against an appetite which not even his intimate friends knew that he possessed. It was a battle which was all but lost many times within the past four years.

Time and again the big-hearted, wonderful brained pastor of what has been called St. Louis' most influential and one of its largest Protestant churches felt himself slipping to the very edge of the pit. Time after time the "friendliest man in St. Louis," as he was styled by Collier's Weekly, quoting Robert Lee Hedges, conquered a temptation of which no other knew, and fought on toward final victory.—St. Louis Republic.

Switchman D. O. Fruit was badly injured late Saturday night while engaged in his duties in the C. G. W. yards here. Medical assistance was promptly secured and everything was done to alleviate the sufferings of the unfortunate man. He was taken to a hospital at St. Joseph, Sunday morning. The accident was caused by the brake on the engine failing to work.—Conception Courier.

Raymond Watson will leave soon for Ideal, S. D., where he will teach in a consolidated school the coming year.

The Rev. Father Augustine of Conception was a Maryville visitor today.

Geysers and hot springs, eternally boiling, rumbling and spouting—these are the things for which the Yellowstone is famous. But this wonderland would be worth setting aside as a national park even if there were no geysers. The Canyon of the Yellowstone River, the countless falls and streams and lakes, the beauty of the forests and peaks—these alone are worthy of nationalization.

Then there is the wealth of wild animal life, equaled nowhere else in the world—30,000 elk and countless bears, deer, antelope and Rocky Mountain sheep. Tourists enjoy the animals, particularly the bear, as keenly as the volcanic wonders. A grizzly comes out of the forest and chases a black bear up

## BIG STRIKE IMPENDS ON ALL RAILROADS

Four Brotherhoods Make Unprecedented Wage Demand.

ASK FOR \$100,000,000 A YEAR

All Plans For Settlement Have Been Rejected by Brotherhood Leaders, Who Are Now Engaged in Taking Strike Vote and Will Return For Another Conference Early In August.

The most important strike vote in the history of labor disputes is now being taken by the more than 300,000 engineers, conductors, firemen and brakemen employed on the railroads of the United States to enforce their demand for an increase in wages estimated by the railroad managers at \$100,000,000 a year.

In many ways the situation thus created is absolutely unprecedented. Never before has a demand so large a raise in pay been presented to a single group of employers at one time.

If the employees vote to leave the service the leaders of the four train service brotherhoods will have the power to declare the biggest strike ever experienced.

Never before has a strike on all the railroads of the country even been seriously threatened. The "big four" brotherhoods of train employees have heretofore confined their concerted wage movements to one section of the country at a time, and while the engineers and firemen or the conductors and brakemen have frequently joined in such movements this is the first case in which all four organizations have combined to enforce an increase in wages.

While the demands apply only to freight and switching service, excepting the passenger service, all of the employees who are members of the organizations, as well as all nonunion train employees, are being called upon to vote for a strike.

The train employees are demanding an eight hour "basic" day—in other words, that they shall be paid the same wage for eight hours or 100 miles or less that they now receive for ten hours or 100 miles or less. This would make the hourly rate one-eighth of a day's pay or the equivalent of twelve and one-half miles instead of one-tenth of a day's pay or the equivalent of ten miles. They also demand "time and one-half for overtime," or a rate of pay 50 per cent higher than the regular rate, for all time over eight hours or over the time which would be required to complete a trip at a speed of twelve and one-half miles per hour.

The demands were formulated by a committee of the executive officers of the four brotherhoods in Chicago last December, and were first submitted to a referendum vote of the men. The demands were formally served on the roads on March 30, with a request that the railroads appoint a conference committee representing all the roads to negotiate with a committee representing the organizations.

The railroads promptly replied with a notice that in connection with the proposals of the employees they desired to have considered certain provisions in the present schedules, which if continued in connection with the higher basis of pay, would lead to unfair results and in many cases would multiply the inequities of double compensation for the same time or service.

Arrangements were made for a conference to be held at New York beginning on June 1 for the purpose of discussing the demands. The roads were represented by the national conference committee of the railways and the employees by the executive officers and general chairmen of the four brotherhoods. The conference lasted two weeks. The brotherhood leaders refused to consider any modification of their demands and the railroads were unwilling to grant a further large increase in wages to the highest paid class of their employees without a mandate from some tribunal representing the public. On June 15 the conference committee gave the brotherhoods a formal reply declining to grant the demands, but proposing that the entire controversy be settled, preferably by submission of the entire question to the interstate commerce commission or else by arbitration under the Newlands law. Both plans for a settlement were rejected by the brotherhood leaders, who announced their intention of taking a strike vote and returning for another conference early in August.

**Write to Your Congressman.**

Chicago.—In an editorial demanding that congress empower the interstate commerce commission to intervene in the railway wage controversy the Chicago Tribune says:

If there was a time for citizens to write to their congressmen it is now. The nation will have to intervene in this railroad strike for self protection. The nation wants justice done to both sides. Justice will not come from permitting a fight between the railroad employees and employers.

All that can possibly come of it will be intense suffering throughout the country.

The public will not long maintain the role of innocent bystander.

The interstate commerce commission should be empowered to prevent this threatened railroad strike. Congress can so empower it.

This is a national emergency. Write to your congressman about it.

### Hetty Green on Pennies.

During one of the periods of her economic living streaks Mrs. Hetty Green was staying at a moderate priced boarding house, where a jobless young stenographer came to know her. The girl finally landed a position for \$12 a week and told Mrs. Green of it. "You've got to leave here," said the old woman emphatically. "You are not earning enough to pay so much for your keep. I'll tell you where to go. There's a hotel for working girls I know. I lent the man the money to build it. There are washrooms there and sewing rooms. Make your own clothes and care for them. Get a roommate. It will cost you only \$4. Save \$6 out of your \$12. Do not go out nights. Watch your company. Do what I tell you and you'll get on. Anybody can. The trouble is most people don't know the value of 5 cents. You are advised. Don't figure in dollars; figure in pennies and save them."—New York World.

### Coat of the Porcupine.

Mother Nature surely must have set out to make "something different" the day she invented the porcupine. Here was an animal with a pathetically mild disposition, without cunning or courage and almost as slow and clumsy as a turtle. It would have been absurd to give him weapons of offense. He would never have the energy to attack anything, so he was given a coat of mail in which he might walk abroad among his enemies and yet be as safe as though he were behind a wall of steel. His upper parts, from his nose to the tip of his thick, muscular tail, are covered with a mass of sharp pointed quills intermixed with coarse hair. Each quill is provided with a number of minute barbs pointing backward, so that when it is once inserted in the flesh of any animal the mere movement of the muscles will cause it to work deeper and deeper.—Exchange.

### Roadless Russia.

It seems almost inconceivable to the foreign visitor who has ever left the beaten track of the railroads in Russia how a great empire can have subsisted so long and so successfully without even a pretense at roads. The secret lies in the fact that for five or six months in the year nature herself provides roads over the greater part of Russia—admirable, smooth, glassy roadways over hard worn snow. The traffic is further cheapened over these roads by the substitution of a sledge runner for the wheel and axle. This brings the cost of land carriage as near the cheapness of water borne freight as possible, and it is the principal reason why Russia in the twentieth century is still a roadless land.

**Hard Words For the High Hat.**  
The case against the "topper" was summed up many years ago by the famous Punch editor, Mark Lemon. "It is hot in summer," he said; "it is not warm in winter. It does not shade us from the sun; it does not shelter us from the rain. It is ugly and expensive. You cannot wear it in a railway carriage. It is always in your way in a drawing room. If you sit on it you crush it, yet it will not save your skull in a fall. It will not go into a portmanteau; it is too hard to roll up, too soft to stand upon. It rusts with the sea air; it spots with the rain. If it is good you are sure to have it taken by mistake at a soiree; if it is bad you are set down for a swindler."—London Spectator.

### Patriarch or Prophet.

A man approached a stand upon which some questionable looking fowls were offered for sale. "What will you sell them for?" he asked of a shrewd, gray bearded farmer. "I sell them for profits," answered the individual. "Is that so?" answered the customer in feigned surprise. "I'm glad to know they are prophets. I took them for patriarchs."—Exchange.

**PRACTICAL HEALTH HINT.**

Force Yourself to Be Well. "Plant your feet firmly and squarely on the ground, throw back your shoulders, fold your arms and affirm in most emphatic terms that you are strong, healthy and well. Do this for a few minutes every evening and, even if this is not how you actually feel, maintain by your physical and mental attitude that it is your condition, and you will soon find that it becomes so and that you are not really telling lies." This was the advice given by Dr. J. Stenson Hooker in a lecture in London on "Posturing and Posing For Health." "It is wonderful to what extent our state of health can be altered in this way," Dr. Hooker added. "It stirs up the currents of feeling which act on the nerves. These act on the blood vessels, and thus the whole system is improved, and we become different beings."

### The Duty of a Dollar

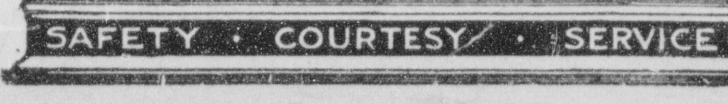

Every dollar has a duty to perform. If it does not work for you it will work for some one else.

It is hunting for a home, a place where it can work quite without being traded or sold out to some one.

The chances are that thousands of dollars that were once yours are now producing a good income for the person who was wise enough to hang on to them. This bank will help you hang on to your money.

### ARKANSAS GLAD TO BE DRY

Prohibition Law Decreases Crime and Saves Money For Citizens, Say Well Pleased Taxpayers.

Little Rock, Ark., Aug. 11.—A survey of cities of Arkansas, as well as rural communities, shows that the state-wide prohibition law has tended to decrease crime. In some counties the criminal business of the courts has been practically destroyed. Most of the criminal cases on the docket are for violations of the prohibition law.

In these cases one year at hard labor and a fine of \$100 must be imposed under the law. No lighter punishment can be given.

Petitions asking for a resubmission of the prohibition question to the people are being circulated, but many business men have refused to sign the

petitions, contending that prohibition has lessened crime and is saving money for the taxpayers.

Grand jury indictments in Little Rock have fallen 65 per cent since the prohibition laws went into effect. Police court dockets disclose that offenses are reduced by half the number shown under open saloons.

Date Set and Undecided About Further Examination of Witnesses—Probably a Grand Jury.

St. Joseph, Aug. 11.—Dr. J. J. Wiser, acting coroner, has adjourned the McDaniel inquest for an indefinite period.

SOME people pay 8 cents, 10 cents, 25 cents for a small cake of soap simply because it is called "toilet" soap.

Others pay 5 cents for a six-ounce cake of Ivory Soap because they know that better soap cannot be made.

Ivory Soap is pleasant to use. It does not harm the tenderest skin. It lathers freely. It rinses easily. It is made of the finest materials to be had. It floats.

No soap can do more no matter what its price.

### Uncle Sam Treating Sons Well.

August 7.—I really didn't intend to desert you for so long, but the improvements in our camp life has cut short attempts at writing. Our camp is taking the appearance of a "boom town" or similar "apparition." Uncle Sam is doing all he can to make his sons comfortable. While it takes time, yet it is surprising how rapidly he accomplishes his desires. All the mess shacks will be completed in this regiment this week, likewise "shanties" for the officers.

One of the most serviceable buildings on the site is the Army Y. M. C. A. It was finished the first of last week and will be formally opened tomorrow evening, at which time Brig. Gen. H. C. Clark will talk.

The structure is thirty by eighty feet approximately and about ten feet at the eaves. It is constructed along the lines of Sunday's tabernacle. Built into the walls and extending around the building is one continuous table for writing save where the platform and secretary's desk are located. There are five double-door entrances. About one foot above the writing table is an open space of two feet, which is screened to admit light and air. Separating the table and auditorium proper on either side is a ten-foot space occupied by tables for playing checkers and dominoes, and two aisles. The auditorium will seat close to 600 people. In all the building will hold nearly 1,000 people. The floor is constructed of the most substantial material—dirt. There is no fine finish work, but it is plain, substantial and fills a big want. Writing material is distributed free. Stamps may be purchased from the secretary. Magazines and books of most every sort worth while are furnished by the Red Cross and others.

The building is located about 100 yards from our street. About ten days were required to construct it. Just to the right is another new structure for the benefit of the K. of C.

About a week ago one evening near ten o'clock we saw quite a number of people collected about two autos at the end of our company street, but presumed the engine on the Ford had gone dead. However, after an hour's stay that feminine quality—curiosity—got the better of us and we had to see the cause of the trouble.

### Pay Day at Last.

Excuse me, but there is the call for Pay—P-A-Y-E—Pay.

Well, now one could hardly believe such a radical change could be seen on anyone's face, but we have been permitted to witness a "near" miracle—the effect of a pay day after a wait of thirty-nine days. Although the fortieth day lacks twelve hours in passing into ancient history, yet I expect we felt like antiquated Noah

when the rain ceased.

The first pay roll is quite tedious to make out because there are so many transfers and disqualified men to be accounted for. This pay covered the period June 20-30. The July pay will be issued about August 15. The boys have been prospecting on the souvenirs they are going to send home and it is amusing to hear some of the things they intend to do. I am not very far out of the reach of one young man whose highest aim seems to be to get on the outside of a big, red, ice-cold watermelon. I believe they are more tempting than the apple was to Father Adam. Indian or Mexican moccasins, an ivory statue of the famous Mexican bull or Mexican woven shawls, table covers and laces seem to be the preferable souvenirs.

### Back to Hunting Story.

Back to my interrupted story. A doctor from up town had gone out in his car with two dogs and a rifle for a little excitement. The result of a ten-mile ride was two wild boars, one six years old and the other about a year. The doctor stated that the animal would not attack anyone unless it was in close quarters. When in the open it is extremely hard to approach one of these animals without being discovered. The dogs chased the pair quite a distance and had them headed for close quarters when the doctor opened fire with his .30-30 Savage. The older animal had been shot in the breast. The younger one was headed for his life extinguisher, and when he was picked up that of his head between the ears and extending backward had been removed from the force of the bullet.

The tusks of the senior animal were triangular in shape and about one and one-half inches long. When the upper and lower sets had rubbed against each other the teeth were as smooth as it is possible to make them and the edges were like unto a razor blade.

The animal does not grow to large proportions but will weigh close to 150 pounds. The height of the older one was nearly twenty inches at the shoulder and about thirty inches from tip of nose to tip of tail, but for a beauty prize show in Missouri they would have no luck.

### Plenty of Sand Storms.

If my memory has not played me false we have enjoyed (?) one real sand storm and several minor ones a week, on an average, since our arrival. Yesterday we had our portion of rain meted out to us. It was another Texas rain.

There were two "spills" about 2:30 a. m. The first happened when the clouds turned loose a downpour and the other when half-awake soldier boys "fished" for the guy ropes to loosen them and missed. The tents are new and we didn't have time to pound stakes.

I have had some reports that little or no rain has fallen there. We would like to spare you some, but owing to distance, time and disposition will content ourselves as best we can.

### TO MEET IN BARNARD.

Eighth Annual Rebekah Assembly Will Meet There Next Monday.

The eighth annual Rebekah assembly will meet in Barnard next Monday, August 14, in the I. O. O. F. hall. An elaborate program has been prepared and some very interesting work will be put on. Seven lodges comprise the assembly, Pickering, Parnell, Ravenwood, Stanberry, Island City, Maryville and Barnard. It is expected that 150 will be present.—Barnard Bulletin.

### Pickering Methodism.

The pastor having returned from his vacation trip will occupy the pulpit at the regular morning service next Sunday at Myrtle Tree, and in the evening at Pickering.

The Epworth League will meet promptly at 7 p. m. Sunday evening. The theme will be "The Silent Wrestler's Victory."

How encouraging it would be if the pastor could see a larger attendance at the midweek service on Wednesday evenings.

"Put on your hat and meet me at church next Sunday."
